

VIOLATION: RIGHT TO WATER, UTILITIES, FOOD, AND OTHER BASIC NECESSITIES

This violation belongs to a 42 year old Caucasian male and his family. They live in rural Tennessee in a small town and do not currently have running water in their home. They receive their water from a neighbor who allows them to fill empty milk jugs and carry it home with them. The Water froze in their pipes last year under their home and they do not have the financial resources to fix the pipes. The family survives financially by receiving disability benefits.
